MICHELIN

A better way forward

WELCOME TO THE WORLD OF MICHELIN COMPETITION

Michelin's mission has always been to offer greater mobility to people and equipment. As we are faced with a doubling of the vehicle population over the next thirty years, Michelin continues to innovate to ensure more secure, sustainable and eco-friendly mobility.

To assist in these changes, Michelin relies on its Technology Centre employing 6000 research staff and an extreme-conditions lab where future solutions are tested with partners on circuits and tracks around the world: competition!

COMPETITIVE RACING HAS BEEN PART OF MICHELIN'S MAKE-UP AND BACKBONE SINCE THE OUTSET.

Michelin is the only brand to have developed as many winning technologies for over a hundred years. The group has a prestigious and authentic heritage, kept alive through the expression of a passion shared by all in the company.

Michelin makes every effort to assure its presence in competitions that have bearing on future mobility, to help its partners achieve victory through the extraordinary quality and performance of its products, along with innovative technologies developed to benefit consumers.

These commitments to success are demonstrated in worldwide, national, local, professional and amateur sport racing. The aim is to strengthen the reputation of the Michelin brand in mature countries and to ensure it is better known in new markets.

For Michelin, competition is also a better way forward.

Pascal Couasnon
Director of Michelin Motorsport

TECHNICAL INFORMATION

TYRE MARKINGS EXPLANATIONS

TAKE THE EXAMPLE
OF A GT TOURING TYRE:

27/65-18 P2G

27 : Tread band width (cm)
65 : Exterior tyre diameter (cm)
18 : Rim diameter (inch)
P : Rain
2 : Compound stiffness
G : Evolution
X : Radial
TL : Tubeless

NUMBER (7, 8, 9) : Compound stiffness
7 : Soft
8 : Medium
9 : Hard

LETTER (A, B, C, D, E, G) : Evolution
